## New Gun Ju st Introduced to the French Army.

The French, who have excelled in the smaller artillery during the whole period of the war, have just introduced this new gun, which it has been said by observers has had much effect on the Germans. It is of the mortar type and shoots at high angle to carry large shot a long distance over hills when the enemy can not be seen.

## GOVERNMENT AWAITS DUVAL WEST'S REPORT

(CONTINUED FROM PAGE ONE) of property losses is also said to be a feature of the forthcoming report. Went to See Leaders.

It is understood that Mr. West left Washington with instructions to interview the leaders of all Mexican factions with a view of ascertaining what ideas they entertained with respect to a settlement of the differences. This government was to be announced ready to assume the role of peacemaker if there was any opportunity of harmonizing the views of the leaders.

No word has reached the public

from Mexico indicating how the factional heads have received the suggestion, but it is believed that Carranza and Villa both demand recognition before considering peace. The story that reached New Orleans from Vera Cruz a few days ago from Carranza sources, that Carranza expected recognition, is accepted as having been a forerunner of the first chief's claims.

Secretary Bryan has let it be known that the United States is not preparing to give recognition with the present lights before it, and it is not being assumed in Washington that Mr. West's report would alter the situation.

## REHEARSALS OF ELKS

## MINSTRELS STARTED

EXTRAVAGANZA EXTRAORDINARY TO BE STAGED HERE WEDNESDAY AND THURSDAY

Rehearsals were started for the Elks minstrels which will be staged at the Guthrie theater next Wednesday and Thursday nights, May 12 and 13. Thirty-one male black face minstrels will be used in the show, which will consist of the regulation minstrel first part and a second part of several acts of a vaudeville and minstrel variety, concluding with a big minstrel afterpiece, "The Seldom Inn."

The Joe Bren Producing company, of Kansas City and Chicago, will again have the direction of the show. Their advance representative, Geo. L. Stevens, now has charge of the rehearsals. All new special scenery, costumes and electrical effects are carried. The entire production being specially made for the Bren company in Chicago at the beginning of the season. According to press notices from different cities, the scenic part of the show is equal to that seen with the best professional minstrel companies. Some of the successes of this season for the Bren company have been at Dallas and Fort Worth, Texas; Hot Springs and Little Rock, Ark., and Muskogee, Okla.

Nightly rehearsals will be held up

to the date of the show. Joe Bren, musical director of the company, will be here this year to personally direct the orchestra. Chas. Sapp, another director who has worked in the shows here before, will arrive Friday.

## FRED BARDE ASKS FOR SOME BIRD INFORMATION

Editor The Leader: I am quite sure that in Guthrie there was never keener interest in the welfare of our wild bird life. In the last few years there has been a marked growth of affection for these delightful inhabitants of our fields and gardens. It has been so long ago that I cannot now recall the finding of a bird's nest that had been wantonly destroyed by a thoughtless boy. I think this is fine praise for the manliness and kindness of Guthrie boys.

As you may know, I make many photographs of bird life in the country surrounding Guthrie. The nests of our small and rarest birds are often so carefully hidden that considerable time is required to find them. I am addressing you for the purpose of asking friends of our birds to help me a bit by sending me a post-card giving me the location of nests.

I should like most of all to find humming-birds' nests. They may be found occasionally in Guthrie. Also, I should be pleased to know the location of hawks' nests and a turkey buzzard's nest. Of course, only persons living in the country are in reach of this latter information.

This is a splendid season for our native wild birds. The increase in the number of brown thrushes is astonishing.—Fred S. Barde.

Farmers Too Busy to Come to Town. Owing to the busy season and activity on the farm just now, the free monthly sales days will be dispensed with until September.

Swat the fly now; one swat now will save a million swats later.

## BASEBALL PEACE IS NOW IN SIGHT

(By Associated Press.) Chicago, May 5.—The Daily News' Baltimore correspondent says that baseball peace is about to be effected on the following terms: Federal enters Majors, and will participate in world series. Wingo and other players who jumped the Federals and returned to organized baseball (except Walter Johnson) to go to the Federals. None of the players to be punished.

Carry Coarse Cloth in Auto. In the Woman's Home Companion appears a department called "The Exchange," in which readers contribute ideas gathered from their own practical experience. A New York woman contributes the following suggestion: "A coarse piece of sacking carried in the automobile will often help to get the car out of a hole or slippery place. Placed on the ground close to the wheel, it affords a 'gripping' surface."

Castor Oil as Lubricant. Castor oil is frequently used for cylinder oil during automobile races. It has very high viscosity and is particularly suited for lubricating the cylinder of an engine that is working very hard through a long period of time. It does not burn completely in the cylinder and gives rise to rather an unpleasant odor. The castor oil used for cylinder lubrication must be of very pure grade.—Gas Review.

For Increased Comfort. Many new luxuries to increase the comfort of passengers will be seen on cars exhibited at the annual Detroit show. The manufacturers have made comparatively few radical changes in the mechanical construction of cars, but there have been a number of changes this year, in an effort to make motoring more pleasant for all who ride.

## Southerner Sues Convict Wire Tapper for \$55,000, Lost in Attempt to Beat Poolrooms.

Major Edward G. Pendleton, wealthy southerner, who has homes in Palm Beach, Atlantic City, and Savannah, has gone into court in Camden, N. J., and begun suit against Charley Gondorf, now a convict in Sing Sing, and until within a few months the king of wire tappers, for \$55,000, which he says the Gondorf gang in New York stole from him three years ago.

It was in January, 1912, when Major Pendleton, after the hands of the Gondorf swindlers, he caught the yarn that a high official of the telephone company, who was about to leave the company, would give the Gondorf crowd tips on the winners of horse races in advance of the results sent out on the ticker.

The first bet he made of \$5,000 he won. Then he was advised to put down more money for a "killing" sentence.

This time he put up \$25,000, but he lost. Believing the story of the swindlers, he made another bet of \$30,000 to get even. This was also lost through an error of the betting commissioner.

Gondorf's arrest, conviction and sentence to five years in Sing Sing for stealing \$4,500 from a London caterer last September was a great shock to him. For more than twenty years he had been able to evade jail sentences.
